Wilco™ Service Daily Delivery Entry Procedure

Everyday, before _____, you must enter all deliveries that have occurred between _____ and _____. To make this easy, the Wilco™ panel will sound an alarm whenever a delivery has occurred and must be entered. Follow this procedure:

1. When the display is showing the status display or any tank data display, press `0` to access the Enter/Edit Data Menu. The system will immediately jump to the Enter/Edit Data Menu and it will prompt you for a passcode. The display will show:

   ```
   ENTER YOUR
   PASSCODE
   ```

2. Enter your four-digit passcode into the Keypad/Display Unit. If you enter the correct passcode*, the display will show:

   ```
   TANK1:[Product]
   DLVRY [XXXXX] GAL
   ```

3. Press `TANK/HOSE` repeatedly until you access the tank for which you want to enter a delivery. If no delivery was entered since the last time the Wilco™ equipment transmitted its data, the display will report zero volume.

4. Press `CHANGE`. Any previously entered information for this tank will disappear from the display. Enter the correct digits for the gross gallons delivered on the keypad.**

5. Press `ENTER` and the system will accept the delivery information. The display will show the newly entered sales information.

6. Press `MENU` to return to the Enter/Edit data display, or press `TANK/HOSE` to access another hose or product.

* If you enter the wrong passcode, the system will display "PASSCODE ERROR" and prompt you to enter your passcode.

** Only one delivery per tank can be entered during each 24-hour period between daily data transmissions. If more than one delivery has occurred, add all of the deliveries for the tank together and enter them as one number.

Wilco™ Service Daily Delivery Entry Procedure
(Metric Version)

Everyday, before _____, you must enter all deliveries that have occurred between _____ and _____. To make this easy, the Wilco™ panel will sound an alarm whenever a delivery has occurred and must be entered. Follow this procedure:

1. When the display is showing the status display or any tank data display, press | 0 | to access the Enter/Edit Data Menu. The system will immediately jump to the Enter/Edit Data Menu and it will prompt you for a passcode. The display will show:

    > **ENTER YOUR**
    > **PASSCODE**

2. Enter your four-digit passcode into the Keypad/Display Unit. If you enter the correct passcode*, the display will show:

    > **TANK1:[Product]**
    > **DLVRY [XXXXX] LTR**

3. Press **TANK/HOSE** repeatedly until you access the tank for which you want to enter a delivery. If no delivery was entered since the last time the Wilco™ equipment transmitted its data, the display will report zero volume.

4. Press **CHANGE**. Any previously entered information for this tank will disappear from the display. Enter the correct digits for the net litres delivered on the keypad.**

5. Press **ENTER** and the system will accept the delivery information. The display will show the newly entered sales information.

6. Press **MENU** to return to the Enter/Edit data display, or press **TANK/HOSE** to access another hose or product.
